

SECTION VI
STATE AND FEDERAL ACTIONS AND PROGRAMS
LIKELY TO AFFECT IMPLEMENTATION

State and federal actions will affect and be affected by the implementation of this LWRP. Under State law and the U.S. Coastal Zone Management Act, certain State and federal actions within or affecting the Local Waterfront Revitalization Area (LWRA) must be “consistent” or “consistent to the maximum extent practicable” with the enforceable policies and purposes of the Village of Bayville LWRP. This makes the LWRP a unique, intergovernmental mechanism for setting policy and making decisions. While consistency requirements primarily help prevent detrimental actions from occurring and help ensure that future options are not foreclosed needlessly, active participation on the part of State and federal agencies is also likely to be necessary to implement specific provisions of the LWRP.

The first part of this section identifies the actions and programs of State and federal agencies that should be undertaken in a manner consistent with the Village of Bayville LWRP. This is a generic list of actions and programs, as identified by the New York State Department of State (NYSDOS) and, therefore, some of the actions and programs listed may not be relevant to this program. Pursuant to the State Waterfront Revitalization of Coastal Areas and Inland Waterways Act (Executive Law, Article 42), the Secretary of State individually and separately notifies affected State agencies of those agency actions and programs which are to be undertaken in a manner consistent with approved LWRPs. Similarly, federal agency actions and programs subject to consistency requirements are identified in the manner prescribed by the U.S. Coastal Zone Management Act and its implementing regulations. The lists of State and federal actions and programs included herein are informational only and do not represent or substitute for the required identification and notification procedures. The current official list of actions subject to State and federal consistency requirements may be obtained from the NYSDOS.

The second part of this section is a more focused and descriptive list of State and federal agency actions that are necessary for further implementation of this LWRP. It is recognized that a State or federal agency’s ability to undertake such actions is subject to a variety of factors and considerations; that the consistency provisions referred to above may not apply; and that the consistency requirements cannot be used to require a State or federal agency to undertake an action it could not undertake pursuant to other provisions of law. Reference should be made to Sections IV and V of this document, which also discuss State and federal assistance required to implement this LWRP.
